CHAMPIONSHIP SPORTSCAR IRACING LEAGUE

CSiRL

CSiRL GRAND ENDURANCE SERIES GUIDE

Season 1 — 2027. GT3 team endurance run like real racing: a full race weekend at every round — practice on Friday and Saturday evenings and Sunday morning, then qualifying and the race on Sunday — race length varies by round, from 2 to 8 hours.

One-stop reference. This document is the complete one-stop reference for the series: the Series Guide (Part 1) plus the full CSiRL Sporting Code (Part 2).

8	2–4	GT3	2–8 HRS
ROUNDS — JAN TO JUN 2027	DRIVERS PER TEAM	OPEN TUNING	RACE LENGTH VARIES BY ROUND

HOW TO JOIN — Both steps are required
1. Join the Discord: https://discord.gg/d52ma2HQVB
2. Join the league in iRacing — League ID **11685**.
You must complete both steps to race.

1. Series at a glance

This is an endurance championship run like real-world racing. Every round is a full race weekend: three practice sessions — Friday and Saturday evenings and Sunday morning — then qualifying and the race on Sunday. Race length varies by round — see the season calendar in Section 4. It is a team championship — teams only, 2–4 drivers per team, with driver swaps during the race. This document is the complete one-stop reference for the series: the Series Guide (Part 1) plus the full CSiRL Sporting Code (Part 2).

Series	CSiRL Grand Endurance
Season	Season 1, 2027
Cars	GT3 — all GT3 cars available in iRacing
Teams	Teams only — 2–4 driver teams, with driver swaps during the race
Setups	Open tuning (no fixed setups)
Rounds	8 rounds spread over 6 months, January–June 2027
Platform	iRacing, under the CSiRL league — League ID 11685
Admins	Mike Fagone, Dave Sciarretta, Ivan Duarte

Contents — Part 1: Series Guide

1 Series at a glance
2 Race weekend format
3 Cars and teams
4 Season calendar — Season 1, 2027
5 Championship points system
6 Stint & driver-swap rules
7 Race control & incident rules
8 Registration & team entry

Part 2 — CSiRL Sporting Code (full text, Sections 1–10)

> **Points and sporting code confirmed.** Sections 1–8 are set out in full, including the FIA WEC-adapted points system in Section 5 and the stint, race control and registration rules in Sections 6–8.

2. Race weekend format

Every round runs to the same timetable. Practice runs on Friday and Saturday evenings, plus a final session on Sunday morning, so all drivers in a team can prepare and work on the setup before race day on Sunday.

SESSION	DAY	TIME (ET)	FORMAT
FP1	Friday	8:00–10:00 PM	Free practice — 2 hours
FP2	Saturday	8:00–10:00 PM	Free practice — 2 hours
FP3	Sunday	8:50–9:50 AM	Free practice — 60 minutes
Qualifying	Sunday	9:50 AM	10-minute open qualifying
Race	Sunday	10:00 AM	Race — length varies by round (see calendar)

Qualifying runs immediately before the race on Sunday morning. The race starts at 10:00 AM ET, immediately after qualifying. Its length is set per round — from 2 to 8 hours — see the season calendar in Section 4.

3. Cars and teams

Cars — GT3

All GT3 cars available in iRacing are eligible. Tuning is open — there are no fixed setups, so each team develops its own setup across the three practice sessions.

Teams — 2–4 drivers

Entry is teams only. Each team runs 2–4 drivers, and the drivers share the car with driver swaps during the race. There are no solo entries.

Stint and driver-swap rules — including declared lineups and the minimum drive-time rule — are set out in full in Section 6.

4. Season calendar — Season 1, 2027

Eight rounds spread over six months, from January to June 2027. Each round follows the standard weekend format in Section 2: FP1 on Friday evening, FP2 on Saturday, FP3 on Sunday morning, then qualifying and the race on Sunday. Race length varies by round, as shown in the calendar. The calendar visits eight of the most-used endurance tracks in iRacing.

RD	FP1 (FRI)	RACE (SUN)	TRACK	RACE LENGTH
1	Fri Jan 8, 2027	Sun Jan 10, 2027	Daytona International Speedway — Road Course	4 hours
2	Fri Jan 29, 2027	Sun Jan 31, 2027	Mount Panorama (Bathurst)	2 hours
3	Fri Feb 19, 2027	Sun Feb 21, 2027	Indianapolis Motor Speedway — Road Course	8 hours
4	Fri Mar 12, 2027	Sun Mar 14, 2027	Sebring International Raceway	2 hours
5	Fri Apr 2, 2027	Sun Apr 4, 2027	Michelin Raceway Road Atlanta	6 hours
6	Fri Apr 23, 2027	Sun Apr 25, 2027	Circuit de Spa-Francorchamps	2 hours
7	Fri May 14, 2027	Sun May 16, 2027	Nürburgring	3 hours
8	Fri Jun 4, 2027	Sun Jun 6, 2027	Watkins Glen International — Boot	6 hours

On race Sundays, FP3 runs 8:50–9:50 AM ET, qualifying is at 9:50 AM ET and the race starts at 10:00 AM ET at every round. Race length varies by round — see the Race length column above. FP1 and FP2 run 8:00–10:00 PM ET on the Friday and Saturday of each race week.

5. Championship points system

Modeled on the FIA World Endurance Championship (WEC), adapted for this series. Longer races are worth more, as in WEC.

Two championships

Two championships are awarded: the **Teams' Championship** and the **Drivers' Championship**.

Base points and race-length multiplier

Base points per round, by finishing position: 1st 25 · 2nd 18 · 3rd 15 · 4th 12 · 5th 10 · 6th 8 · 7th 6 · 8th 4 · 9th 2 · 10th 1. Positions 11th and lower score 0.

The base points are then multiplied by race length: 2-hour and 3-hour rounds pay ×1; the 4-hour round (R1 Daytona) pays ×1.5; the 6-hour and 8-hour rounds (R3 Indianapolis, R5 Road Atlanta, R8 Watkins Glen) pay ×2.

×1 ROUNDS — 2H & 3H	1ST	2ND	3RD	4TH	5TH	6TH	7TH	8TH	9TH	10TH
Points	25	18	15	12	10	8	6	4	2	1

×1.5 ROUND — R1 DAYTONA, 4H	1ST	2ND	3RD	4TH	5TH	6TH	7TH	8TH	9TH	10TH
Points	37.5	27	22.5	18	15	12	9	6	3	1.5

×2 ROUNDS — 6H & 8H	1ST	2ND	3RD	4TH	5TH	6TH	7TH	8TH	9TH	10TH
Points	50	36	30	24	20	16	12	8	4	2

Scoring rules

- **Pole position:** +1 point (flat, not multiplied).
- **Classification:** to score points a team must complete at least 70% of the winning team's race distance. Teams below 70% are not classified and score 0.
- **Drivers' Championship:** every driver who drives the car in a classified finish earns that round's team points, provided they met the minimum drive-time rule (Section 6). Drivers may only score for one team per round.
- **No drop rounds:** all 8 rounds count toward both championships.
- **Ties:** broken by countback — most round wins, then most 2nd places, and so on.

6. Stint & driver-swap rules

- **Declared lineups:** each team must declare its driver lineup for a round before qualifying begins. No undeclared driver may drive the car in qualifying or the race. Lineup changes after qualifying require admin approval.
- Any declared driver may qualify the car and any declared driver may start the race.
- **Minimum drive time:** every declared driver who takes part must complete at least 25% of the team's completed race laps, and no driver may complete more than 60% of the team's completed race laps. This mirrors IMSA/WEC minimum-drive-time and iRacing fair-share principles.
- A team whose drivers fail the drive-time rule is not classified for that round and scores no points.
- **Driver swaps** take place in the team's pit box using iRacing's driver-swap function. The car must be stationary in the pit box for a swap.

7. Race control & incident rules

- **Incident limits — modeled on iRacing's endurance special events:** incident points are counted per team car, shared across all of the team's drivers, as iRacing team racing counts them. The limits are enforced automatically by iRacing in-session, with the thresholds set by the league admins, and the system is modeled on the one iRacing uses for its official endurance special events (such as the Spa 24h, Petit Le Mans and Bathurst 1000). The penalty is a stop-and-go: the first threshold scales with race length, further stop-and-go penalties repeat every +20x, and the team car is disqualified at the cap for that race length.

Incident limits by race length (per team car)

RACE LENGTH	ROUNDS	FIRST PENALTY	FURTHER PENALTIES	DISQUALIFICATION
2 hours	R2 Bathurst, R4 Sebring, R6 Spa	20x — stop-and-go	Every +20x — stop-and-go	**60x — DISQUALIFIED**
3 hours	R7 Nürburgring	30x — stop-and-go	Every +20x — stop-and-go	**90x — DISQUALIFIED**
4 hours	R1 Daytona	40x — stop-and-go	Every +20x — stop-and-go	**120x — DISQUALIFIED**
6 hours	R5 Road Atlanta, R8 Watkins Glen	50x — stop-and-go	Every +20x — stop-and-go	**150x — DISQUALIFIED**
8 hours	R3 Indianapolis	50x — stop-and-go	Every +20x — stop-and-go	**150x — DISQUALIFIED**

- Each penalty threshold below the cap is a **stop-and-go** served in-session. At the cap, iRacing **disqualifies** the team car.
- **Two systems, side by side:** the incident limits above are automatic and in-session. Conduct offenses are still stewarded post-race under the CSiRL Sporting Code — reaching an incident threshold does not excuse conduct, and a steward penalty can still follow.
- **Protests & appeals:** protest and appeal windows and procedures follow the CSiRL Sporting Code in Part 2 of this document (Sections 8–9). Where anything in this section differs from Part 2 on protests or appeals, Part 2 governs.
- Available penalties follow the CSiRL penalty ladder (Warning / Minor / Major / Severe), including post-race time penalties, championship points deductions, next-round grid penalties, and disqualification for severe offenses.
- One defensive move only — a second move is blocking. Blue-flag and unlapping conduct per the CSiRL Sporting Code.

8. Registration & team entry

- Entry is by the official Google Form, submitted once per team by the team captain (link posted in the CSiRL Discord, #ge-team-sign-up).
- Teams of 2–4 drivers. The form records: team name, GT3 car choice, and every driver's iRacing name and Discord handle.
- Every driver on the team must join the CSiRL league in iRacing (league ID 11685) and be a member of the CSiRL Discord.
- An entry is confirmed when the team appears in #ge-registered-teams in the CSiRL Discord.
- Car changes and entry updates are handled through #ge-signup-help.

How to join

Both steps are required — completing only one is not enough to race.

Step 1 — Join the Discord: https://discord.gg/d52ma2HQVB
Step 2 — Join the league in iRacing: League ID **11685**

League Admins: Mike Fagone, Dave Sciarretta & Ivan Duarte.

Part 1 of this document covers Season 1, 2027, including the confirmed points system in Section 5 and the endurance rules in Sections 6–8. The full CSiRL Sporting Code follows as Part 2 and governs where it differs from Part 1 on protest and appeal procedures. If anything here conflicts with a newer published update from the league admins, the newer update wins.

CHAMPIONSHIP SPORTSCAR IRACING LEAGUE

CSiRL

PART 2

GRAND ENDURANCE SPORTING CODE

The Grand Endurance edition of the CSiRL Sporting Code follows in full — written for this series: GT3 cars, teams of 2–4 drivers, driver swaps, and races from 2 to 8 hours. It governs every Grand Endurance lobby, qualifying session, race and official league channel. Where Part 1 and Part 2 differ on protest or appeal windows and procedures, Part 2 governs.

CHAMPIONSHIP SPORTSCAR IRACING LEAGUE | CSIRL

GRAND ENDURANCE SPORTING CODE

Official rulebook for CSiRL Grand Endurance — Season 1, 2027 only. GT3 cars, teams of 2–4 drivers, open tuning, races from 2 to 8 hours.

SEASON 1, 2027 - GRAND ENDURANCE ONLY

League Admins: Mike Fagone, Dave Sciarretta & Ivan Duarte
Discord: discord.gg/d52ma2HQVB

Season 1: Qualifying Sun 9:50 AM ET, Race Sun 10:00 AM ET

This code applies to every CSiRL Grand Endurance lobby, practice session, qualifying session, race, and official Discord channel. By entering a Grand Endurance lobby you agree to race under this code. If anything here conflicts with the iRacing Sporting Code, the stricter standard applies in CSiRL lobbies.

Contents & how to use this code

1 League at a glance
2 The series
3 Entry, eligibility & Discord gating
4 Race-weekend format
5 Calendar — Season 1, 2027
6 Points — championship
7 On-track sporting code
8 Incidents, penalties & stewarding
9 Protests & appeals
10 Championships, ties & conduct off track

1. League at a glance

Championship Sportscar iRacing League (CSiRL) runs Grand Endurance on iRacing. This Sporting Code covers **Season 1, 2027 only**: GT3 cars, teams of 2–4 drivers with driver swaps, open tuning, and a full race weekend at every round — practice on Friday and Saturday evenings and Sunday morning, then qualifying and the race on Sunday morning.

> **One series, one system.** Grand Endurance scores on the FIA WEC-adapted championship points system in Section 6 of this code — the same points set out in Part 1, Section 5. Longer races are worth more.

How to use this code on race weekend

- **New driver?** Read Sections 3–4, then the Season 1 calendar in Section 5.
- **Chasing points?** Section 6 is the whole system.
- **Involved in an incident?** Section 7 defines the standard, Section 8 the penalties, Section 9 the protest window (48 hours).

Discord-first league. Join at **discord.gg/d52ma2HQVB and** sign up in iRacing under league ID **11685** — both steps are required. No Discord, no grid slot.

2. The series

Season 1 — Grand Endurance

ITEM	GRAND ENDURANCE — SEASON 1, 2027
Series	CSiRL Grand Endurance
Cars	GT3 — all GT3 cars available in iRacing
Setups	Open tuning — each team develops its own setup
Teams	Teams only — 2–4 drivers per team, with driver swaps during the race. No solo entries.
Season	Jan–Jun 2027. 8 rounds spread over 6 months.
Race weekend	FP1 Fri 8:00–10:00 PM ET, FP2 Sat 8:00–10:00 PM ET, FP3 Sun 8:50–9:50 AM ET; qualifying Sun 9:50 AM ET; race Sun 10:00 AM ET.
Race length	Varies by round — 2 to 8 hours (see Section 5).
Points	FIA WEC-adapted championship points (Sec. 6)

Identity: endurance racing run like real racing. The full weekend, the declared lineups, the minimum drive-time rule and the driver swaps are the series — a team wins or loses together, across every stint.

Entry & race-weekend format

3. Entry, eligibility & Discord gating

- **Discord-first entry.** Every driver on a team must be in the CSiRL Discord (discord.gg/d52ma2HQVB). No Discord, no grid slot.
- **Team entry.** Entry is by the official Google Form, submitted once per team by the team captain (Part 1, Section 8). Teams run 2–4 drivers; there are no solo entries.
- **iRacing account in good standing.** Race under your real iRacing display name. Alt accounts require admin disclosure. Every driver must also join the CSiRL league in iRacing — league ID 11685.
- **Content ownership.** Own the car and track for that round before lobby time (see Sec. 5). Admin will not delay a lobby for a purchase.
- **Declared lineups.** Each team must declare its driver lineup for a round before qualifying begins. No undeclared driver may drive the car in qualifying or the race. Lineup changes after qualifying require admin approval.
- **New drivers.** Attend practice, run clean laps, and ask in Discord before qualifying if unsure about any procedure.

4. Race-weekend format

PHASE	WHEN	RULES
FP1	Fri 8:00–10:00 PM ET	Free practice — 2 hours. No intentional wrecking; practice incidents can still be protested.
FP2	Sat 8:00–10:00 PM ET	Free practice — 2 hours. Same standard as FP1.
FP3	Sun 8:50–9:50 AM ET	Free practice — 60 minutes. Same standard as FP1.
Qualifying	Sun 9:50 AM ET	10-minute open qualifying. Sets the race grid. Any declared driver may qualify the car. Pole position scores +1 point (Sec. 6).
Race	Sun 10:00 AM ET	Starts immediately after qualifying. Length varies by round — 2 to 8 hours (see Sec. 5). Any declared driver may start the race.

Disconnects: rejoin if iRacing permits; the car is scored on the distance it completes in the official results. **Weather / time:** per round announcement. **Setups:** open tuning.

Calendar — Season 1, 2027

Eight rounds, January to June 2027. Every round runs the standard weekend format in Section 4: FP1 on Friday evening, FP2 on Saturday, FP3 on Sunday morning, then qualifying at 9:50 AM ET and the race at 10:00 AM ET on Sunday. Race length varies by round, as shown.

RD	RACE (SUN)	TRACK	RACE LENGTH
1	Jan 10, 2027	Daytona International Speedway — Road Course	4 hours
2	Jan 31, 2027	Mount Panorama (Bathurst)	2 hours
3	Feb 21, 2027	Indianapolis Motor Speedway — Road Course	8 hours
4	Mar 14, 2027	Sebring International Raceway	2 hours
5	Apr 4, 2027	Michelin Raceway Road Atlanta	6 hours
6	Apr 25, 2027	Circuit de Spa-Francorchamps	2 hours
7	May 16, 2027	Nürburgring	3 hours
8	Jun 6, 2027	Watkins Glen International — Boot	6 hours

FP1 for each round is the Friday before race Sunday: Jan 8, Jan 29, Feb 19, Mar 12, Apr 2, Apr 23, May 14 and Jun 4, 2027.

Championship points

6. Championship points — FIA WEC-adapted

Modeled on the FIA World Endurance Championship (WEC), adapted for this series. Two championships are awarded: the **Teams' Championship** and the **Drivers' Championship**.

Base points per round, by finishing position: **1st 25 · 2nd 18 · 3rd 15 · 4th 12 · 5th 10 · 6th 8 · 7th 6 · 8th 4 · 9th 2 · 10th 1**. Positions 11th and lower score 0. The base points are then multiplied by race length.

×1 ROUNDS — 2H & 3H (R2, R4, R6, R7)										
Pos	1st	2nd	3rd	4th	5th	6th	7th	8th	9th	10th
Points	25	18	15	12	10	8	6	4	2	1

×1.5 ROUND — R1 DAYTONA, 4H										
Pos	1st	2nd	3rd	4th	5th	6th	7th	8th	9th	10th
Points	37.5	27	22.5	18	15	12	9	6	3	1.5

×2 ROUNDS — 6H & 8H (R3, R5, R8)										
Pos	1st	2nd	3rd	4th	5th	6th	7th	8th	9th	10th
Points	50	36	30	24	20	16	12	8	4	2

- **Pole position:** +1 point (flat, not multiplied).
- **Classification:** to score points a team must complete at least 70% of the winning team's race distance. Teams below 70% are not classified and score 0.

Points — championship scoring

6.1 How the championships are scored

- **Teams' Championship:** each classified team scores the points for its finishing position, multiplied as set out in Section 6, plus the pole point where earned.
- **Drivers' Championship:** every driver who drives the car in a classified finish earns that round's team points, provided they met the minimum drive-time rule (Sec. 7.4). Drivers may only score for one team per round.
- **Drive time and classification:** a team whose drivers fail the minimum drive-time rule in Section 7.4 is not classified for that round and scores no points.
- **No drop rounds:** all 8 rounds count toward both championships.
- **Ties:** broken by countback — most round wins, then most 2nd places, and so on.

> **The system in Section 6 is the whole system.** Finishing position sets the base points, race length sets the multiplier, pole adds one flat point, and the 70% classification rule decides who scores at all. Every round counts.

On-track sporting code

7.1 The golden rule

Race hard, race clean, leave racing room. CSiRL is a community league: the driver you battle in this race is the teammate, rival, and recruiter you need next round. Avoidable contact that ruins another team's race is always reviewable, even if iRacing only calls it a racing incident.

7.2 Defending & overtaking

- One defensive move per straight. A second move is blocking. No weaving, no reactionary blocking after the attacker commits.
- A defending driver must leave at least one car's width when a front bumper is alongside the rear axle (the "alongside" threshold).
- Dive-bombs from more than one car length back that require the lead driver to evade to avoid contact are the attacker's fault if contact occurs.
- Blue flags (where shown): lapped drivers hold a predictable line and lift/allow pass at the next safe straight. They do not have to dive off track, but must not defend against leaders.
- Unlapping: a lapped car may unlap itself only with a clean, decisive pass that does not force the car ahead to evade or lose time avoiding contact. If the pass is not clean, the place must be returned.
- Track limits per iRacing. Repeated off-track passes must be conceded immediately or the place returned.

On-track code, continued

7.3 Starts & restarts

- No jump starts, no lagging to slingshot. Maintain pace-lap / formation discipline per lobby setting. The grid is set by qualifying order.
- Cold tires, crowded mirrors: Lap 1 is the highest-risk lap of an endurance race that may run 8 hours. Extra patience is mandatory; Lap 1 avoidable contact draws upgraded penalties (Sec. 8).

7.4 Pit lane, driver swaps & drive time

- **Driver swaps** take place only in the team's pit box, using iRacing's driver-swap function, with the car stationary in the pit box.
- **Minimum drive time:** every driver who takes part must complete at least 25% of the team's completed race laps, and no driver may complete more than 60% of the team's completed race laps. A team that fails this rule is not classified for that round and scores no points.
- Respect pit blend lines. No cutting pit entry/exit to gain time. Fast-repair / tow use per lobby settings announced for the round.
- Rejoin safely — check mirrors/minimap, re-enter at low speed off the racing line.
- No intentional wrecking, brake-checking, pit-lane blocking, or using another car as a brake. Ever. This includes practice and post-race.
- Voice/text chat: no profanity directed at another driver, no hate speech, no spamming. Keep comms to race calls ("passing left," "pitting in") during green-flag racing.

7.5 Incident points & incident limits

iRacing incident points (x) are counted **per team car**, shared across all of the team's drivers, as iRacing team racing counts them. The limits are **enforced automatically by iRacing in-session**, with thresholds set by the league admins, modeled on iRacing's official endurance special events — the Spa 24h, Britcar 24, Petit Le Mans, Bathurst 1000 and Suzuka 1000. The penalty is a **stop-and-go**: the first threshold scales with race length, further stop-and-gos repeat every +20x, and the car is disqualified at the cap.

RACE LENGTH	ROUNDS	FIRST PENALTY	FURTHER PENALTIES	DISQUALIFICATION
2 hours	R2 Bathurst, R4 Sebring, R6 Spa	20x — stop-and-go	Every +20x — stop-and-go	**60x — DISQUALIFIED**
3 hours	R7 Nürburgring	30x — stop-and-go	Every +20x — stop-and-go	**90x — DISQUALIFIED**
4 hours	R1 Daytona	40x — stop-and-go	Every +20x — stop-and-go	**120x — DISQUALIFIED**
6 hours	R5 Road Atlanta, R8 Watkins Glen	50x — stop-and-go	Every +20x — stop-and-go	**150x — DISQUALIFIED**
8 hours	R3 Indianapolis	50x — stop-and-go	Every +20x — stop-and-go	**150x — DISQUALIFIED**

Each threshold below the cap is a **stop-and-go** served in-session; **disqualification** is enforced by iRacing at the cap. This system runs alongside steward review: conduct offenses are still enforced post-race under Sections 8–9, and reaching a threshold does not excuse conduct from review.

> **Self-reporting helps.** Returning a position or owning a mistake before a protest is filed is mitigating and usually caps the outcome at a warning or minor (Sec. 8).

Penalties, protests & championships

8. Incidents, penalties & stewarding

Admin (or designated stewards) review protests and may act on observed incidents without a protest. Penalties are educational first, punitive for repeat or intentional conduct. Stewarding is post-race, by private Discord ticket — see Section 9. The automatic incident-limit penalties in Section 7.5 are separate from steward penalties: iRacing applies those in-session, with thresholds set by the admins.

LEVEL	TYPICAL CONDUCT	PENALTY RANGE
Warning	Careless move, no position change, minor contact	Discord warning; noted for repeat tracking
Minor	Avoidable contact causing position loss; unsafe rejoin	Place swap / post-race time penalty, or equivalent points adjustment
Major	Avoidable contact causing DNF-level damage; Lap 1 pile-up fault; blocking causing crash	Race disqualification, or grid penalty next round; points dock at admin discretion
Severe	Intentional wrecking, retaliation, hate speech	Round disqualification, suspension, or removal from series/Discord

- **Repeat offenders:** two minors in three rounds escalate to a major. Stewards track privately; drivers may request their own record.
- **Self-reporting:** voluntarily returning a position or self-reporting fault before a protest is filed is mitigating and usually caps the penalty at a warning/minor.
- No in-race live steward penalties unless admin calls one in Discord voice for safety (e.g., park a damaged car). Most steward adjudication is post-race — the incident-limit penalties in Section 7.5 are the exception, applied automatically by iRacing in-session.
- **Admin authority:** league admins and designated stewards enforce this code. Their decisions are subject only to the appeal process in Section 9.

Protests, championships & conduct

9. Protests & appeals

- File by **private ticket in #stewarding** within **48 hours** of the race session's conclusion. Include: round, lap, turn, teams and drivers involved, and a replay clip or iRacing replay timestamp.
- One protest per incident. Do not argue the incident in public channels while it is under review.
- Stewards aim to publish decisions after the protest window closes. Decisions state fault, penalty (if any), and points adjustments.
- **Appeal:** one appeal per decision, within **24 hours** of publication, with new evidence only (different angle/replay). The appeal decision is final.
- Frivolous or harassing protests can themselves draw a warning.

How stewarding runs. The stewards are Mike Fagone, Dave Sciarretta, Ivan Duarte and Kevin Annis. A ticket is visible only to the filing team's representative and the stewards; the stewards may add the other team involved so it can give its side. A ruling requires two stewards in agreement — the league admin breaks a tie, and a Severe penalty (Sec. 8) always requires the admin plus one other steward. A steward involved in the incident under review takes no part in that decision. No replay evidence, no case; incidents without clear fault are ruled a racing incident with no action. Penalties bind the team entry. Stewards keep a private per-team record for the Sec. 8 escalation rule — a team may request its own record by ticket. Decisions are delivered in the ticket and kept in the stewards' log; a one-line outcome is posted publicly only when a penalty changes points or positions.

10. Championships, ties & off-track conduct

- **Titles:** Teams' Champion and Drivers' Champion — both titles are awarded on the points in Section 6.
- **Ties:** broken by countback — most round wins, then most 2nd places, and so on.
- **Off-track conduct:** Discord rules apply in all league spaces. Recruiting spam, poaching drama, or leaking lobby passwords outside Discord breaches this code.
- **Amendments:** admin may amend this code mid-season for safety or clarity with 24-hour Discord notice. Points-system changes never apply retroactively unless correcting a scoring error.
- **Scoring errors:** report within 48 hours of published standings. Corrections after that window require admin approval.

Ready to race? Grand Endurance Season 1: qualifying Sundays 9:50 AM ET, races 10:00 AM ET. Join both steps: **discord.gg/d52ma2HQVB** + iRacing league ID **11685**.

Championship Sportscar iRacing League (CSiRL) — Grand Endurance Sporting Code, Season 1, 2027. Admins: Mike Fagone, Dave Sciarretta & Ivan Duarte. Discord: discord.gg/d52ma2HQVB. Points: FIA WEC-adapted system, Section 6 of this code.
